PRODUCT USED

NanoPhos DeSalin-SG

**NanoTechnology Salt Grabber for  
Pretreatment of Porous, Efflorescent  
Surfaces**

**DeSalin-SG is a special cleaner, developed for treating efflorescence deposits on porous Surfaces like Ceramic Bricks, Roof Tiles, Stones or other absorptive Surfaces.**

**Benefits**

- ❖ **Grabs and solubilizes the metal cations responsible for efflorescence growth.**
- ❖ **Does not change the appearance Of the application surface.**
- ❖ **Water-based formulation. No Solvents (Low VOC).**
- ❖ **Combines repairing and protective action.**
- ❖ **Contains no acid.**
- ❖ **Cost-effective.**
- ❖ **Environment friendly.**

## PRODUCT USED

### NanoPhos SurfaPore-R

#### NanoTechnology Water Repellent for Clay-based Surfaces

**SurfaPore R** is a water emulsion formulation, composed of nanoparticles, that preserves the aesthetic appearance of clay surfaces while protecting them against water penetration, deterioration and from “greening” of mould growth. Hence, treated with **SurfaPore R** clay-based surfaces remain protected against “greening”, corrosion and cracking due to frost.

#### Benefits

- ❖ High breathability.
- ❖ Long-lasting and UV-resistant.
- ❖ Very effective and Nano-based.
- ❖ Water-based.
- ❖ Non film forming-Invisible.
- ❖ Easy application on surface or by dipping.
- ❖ Environment friendly.
- ❖ Cost-effective.
