#### Revision nr. 15 NANOPHOS S.A. Dated 01/09/2016 Printed on 06/10/2016 SurfaPore C Page n. 1/10

# SECTION 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Code: NanoPhos20 Product name SurfaPore C

1.2. Relevant identified uses of the substance or mixture and uses advised against

Waterproofing of porous surfaces such as cement, stones, walls and grout Intended use

1.3. Details of the supplier of the safety data sheet

NANOPHOS S.A. Name

**Technological & Science Park** Full address

19 500 Lavrio (Greece) District and Country

Greece

Tel. +30 22920 69312 Fax +30 22920 69303

e-mail address of the competent person

iarabatz@NanoPhos.com responsible for the Safety Data Sheet

Product distribution by Ioannis Arabatzis

1.4. Emergency telephone number

For urgent inquiries refer to +30 22920 69312

# **SECTION 2. Hazards identification.**

## 2.1. Classification of the substance or mixture.

The product is not classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP). However, since the product contains hazardous substances in concentrations such as to be declared in section no. 3, it requires a safety data sheet with appropriate information, compliant to EC Regulation 1907/2006 and subsequent amendments. Hazard classification and indication:

## 2.2. Label elements.

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

Hazard pictograms:

Signal words:

Hazard statements:

**EUH210** Safety data sheet available on request.

**EUH208** Contains:

CMIT/MIT

May produce an allergic reaction.

# NANOPHOS S.A. Revision nr. 15 Dated 01/09/2016 Printed on 06/10/2016 Page n. 2/10

Precautionary statements:

**P261** Avoid breathing dust / mist / spray.

P271 Use only outdoors or in a well-ventilated area.

2.3. Other hazards.

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

# **SECTION 3. Composition/information on ingredients.**

#### 3.1. Substances.

Information not relevant.

#### 3.2. Mixtures.

Contains:

Identification.	Conc. %.	Classification 1272/2008 (CLP).
N-octyltriethoxysilane		(OLI ).
CAS. 2943-75-1	0 - 5	Eye Irrit. 2 H319, Skin Irrit. 2 H315, STOT SE 3 H335
EC. 220-941-2		,
INDEX		
CMIT/MIT		
CAS. 55965-84-9	0 - 0,0015	Acute Tox. 3 H301, Acute Tox. 3 H311, Acute Tox. 2 H330, Skin Corr. 1B H314, Skin Sens. 1 H317, Aquatic Acute 1 H400 M=1, Aquatic Chronic 1 H410
EC		

W.D.E.\

INDEX. 613-167-00-5

Note: Upper limit is not included into the range.

The full wording of hazard (H) phrases is given in section 16 of the sheet.

# **SECTION 4. First aid measures.**

## 4.1. Description of first aid measures.

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 30-60 minutes, opening the eyelids fully. Get medical advice/attention.

SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention.

INGESTION: Have the subject drink as much water as possible. Get medical advice/attention. Do not induce vomiting unless explicitly authorised by a doctor.

INHALATION: Get medical advice/attention immediately. Remove victim to fresh air, away from the accident scene. If the subject stops breathing, administer artificial respiration. Take suitable precautions for rescue workers.

#### 4.2. Most important symptoms and effects, both acute and delayed.

NANOPHOS S.A.	Revision nr. 15
	Dated 01/09/2016
SurfaPore C	Printed on 06/10/2016
	Page n. 3/10

For symptoms and effects caused by the contained substances, see chap. 11.

4.3. Indication of any immediate medical attention and special treatment needed.

Information not available.

# **SECTION 5. Firefighting measures.**

#### 5.1. Extinguishing media.

## SUITABLE EXTINGUISHING EQUIPMENT

Extinguishing substances are: carbon dioxide and chemical powder. For product loss or leakage that has not caught fire, water spray can be used to disperse flammable vapours and protect those trying to stem the leak.

#### UNSUITABLE EXTINGUISHING EQUIPMENT

Do not use jets of water.

Water is not effective for putting out fires but can be used to cool containers exposed to flames to prevent explosions.

## 5.2. Special hazards arising from the substance or mixture.

## HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

If large quantities of the product are involved in a fire, they can make it considerably worse. Do not breathe combustion products.

## 5.3. Advice for firefighters.

## GENERAL INFORMATION

In the case of fire, use jets of water to cool the containers to prevent the risk of explosions (product decomposition and excess pressure) and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Remove all containers containing the product from the fire, if it is safe to do so.

## SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

## **SECTION 6. Accidental release measures.**

## 6.1. Personal precautions, protective equipment and emergency procedures.

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

## 6.2. Environmental precautions.

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

#### 6.3. Methods and material for containment and cleaning up.

NANOPHOS S.A.	Revision nr. 15
	Dated 01/09/2016
SurfaPore C	Printed on 06/10/2016
	Page n. 4/10

Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.

Make sure the leakage site is well aired. Check incompatibility for container material in section 7. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

#### 6.4. Reference to other sections.

Any information on personal protection and disposal is given in sections 8 and 13.

# **SECTION 7. Handling and storage.**

#### 7.1. Precautions for safe handling.

Ensure that there is an adequate earthing system for the equipment and personnel. Avoid contact with eyes and skin. Do not breathe powders, vapours or mists. Do not eat, drink or smoke during use. Wash hands after use. Avoid leakage of the product into the environment.

## 7.2. Conditions for safe storage, including any incompatibilities.

Store only in the original container. Store in a ventilated and dry place, far away from sources of ignition. Keep containers well sealed. Keep the product in clearly labelled containers. Avoid overheating. Avoid violent blows. Keep containers away from any incompatible materials, see section 10 for details.

## 7.3. Specific end use(s).

Information not available.

# **SECTION 8. Exposure controls/personal protection.**

#### 8.1. Control parameters.

Information not available.

#### 8.2. Exposure controls.

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

## HAND PROTECTION

Protect hands with category III work gloves (see standard EN 374).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

#### SKIN PROTECTION

Wear category I professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

#### EYE PROTECTION

Wear airtight protective goggles (see standard EN 166).

#### RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type B filter

NANOPHOS S.A.	Revision nr. 15  Dated 01/09/2016
SurfaPore C	Printed on 06/10/2016
	Page n. 5/10

whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS.

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

# **SECTION 9. Physical and chemical properties.**

## 9.1. Information on basic physical and chemical properties.

Appearance liquid Colour milkv characteristic Odour Odour threshold. Not available. pH. 5.5±0.5 Melting point / freezing point. Not available Initial boiling point. Not available. Boiling range. Not available. Flash point. > 100 °C. Not available. Evaporation rate Flammability (solid, gas) Not available. Lower inflammability limit. Not available. Upper inflammability limit. Not available. Lower explosive limit. Not available Upper explosive limit. Not available. Vapour pressure. Not available. Vapour density Not available. Relative density. 1.00±0.02 Kg/L Solubility Not available. Partition coefficient: n-octanol/water Not available. Auto-ignition temperature. Not available Decomposition temperature. Not available. 2 mPa.s at 25 C Viscosity Explosive properties Not available Oxidising properties Not available.

## 9.2. Other information.

VOC (Directive 2004/42 /EC & 2010/75/EC): 0,01 % - 0,10 g/litre.

VOC (volatile carbon):

# **SECTION 10. Stability and reactivity.**

#### 10.1. Reactivity.

There are no particular risks of reaction with other substances in normal conditions of use.

#### 10.2. Chemical stability.

The product is stable in normal conditions of use and storage.

NANOPHOS S.A.	Revision nr. 15  Dated 01/09/2016
Cumfa Dava C	Printed on 06/10/2016
SurfaPore C	Page n. 6/10
10.3. Possibility of hazardous reactions.	
No hazardous reactions are foreseeable in normal conditions of use and storage.	
10.4. Conditions to avoid.	
None in particular. However the usual precautions used for chemical products should be respected.	
40.5. In a constitute marketiste	
10.5. Incompatible materials.	
Information not available.	
10.6. Hazardous decomposition products.	
Information not available.	
SECTION 11. Toxicological information.	
11.1. Information on toxicological effects.	
In the absence of experimental data for the product itself, health hazards are evaluated according to the properties the criteria specified in the applicable regulation for classification. It is therefore necessary to take into account hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product. This product contains sensitizing substance/s and may cause allergic reactions.	
SECTION 12. Ecological information.	
	est conteminate ceil and waterways
No specific data are available for this product. Handle it according to good working practices. Avoid littering. Do r Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation. Please tak harmful effects on aquifers.	te all the proper measures to reduce
12.1. Toxicity. Information not available.	
momator for available.	
12.2. Persistence and degradability.	
Information not available.	
40.0 Pices and addition and addition	
12.3. Bioaccumulative potential.	
Information not available.	
12.4. Mobility in soil.	
Information not available.	

NANOPHOS S.A.	Revision nr. 15  Dated 01/09/2016
SurfaPore C	Printed on 06/10/2016
Guillar 6.6 G	Page n. 7/10
12.5. Results of PBT and vPvB assessment.	
On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.	
12.6. Other adverse effects.	
Information not available.	
SECTION 13. Disposal considerations.	
CEOTION TO Disposal considerations.	
13.1. Waste treatment methods.	
Reuse, when possible. Neat product residues should be considered special non-hazardous waste. Disposal must be performed through an authorised waste management firm, in compliance with national and loca CONTAMINATED PACKAGING	al regulations.
Contaminated packaging must be recovered or disposed of in compliance with national waste management regu	llations.
SECTION 14. Transport information.	
14.1. UN number.	
Not applicable.	
14.2. UN proper shipping name.	
Not applicable.	
14.3. Transport hazard class(es).	
Not applicable.	
44.4 Parking group	
14.4. Packing group.	
Not applicable.	
Not applicable.	
14.5. Environmental hazards.	
Not applicable.	

NANOPHOS S.A.	Revision nr. 15
	Dated 01/09/2016
SurfaPore C	Printed on 06/10/2016
	Page n. 8/10
14.6. Special precautions for user.	
Not applicable.	
voi applicable.	
14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code.	
nformation not relevant.	
SECTION 15. Regulatory information.	
15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.	
Seveso category. None.	
Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006.	
None.	
Substances in Candidate List (Art. 59 REACH).	
None.	
Substances subject to authorisarion (Annex XIV REACH).	
None.	
Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012:	
None.	
Substances subject to the Rotterdam Convention:	
None.	
2 de tenen en delle ette the Otre Hedre Organisation	
Substances subject to the Stockholm Convention:	
None.	
Healthcare controls.	
nformation not available.	
15.2. Chemical safety assessment.	
No chemical safety assessment has been processed for the mixture and the substances it contains.	
SECTION 16. Other information.	
OLOHON 10. Other information.	

## NANOPHOS S.A.

SurfaPore C

Revision nr. 15

Dated 01/09/2016

Printed on 06/10/2016

Page n. 9/10

# Text of hazard (H) indications mentioned in section 2-3 of the sheet:

Acute Tox. 3 Acute toxicity, category 3

Skin Corr. 1B Skin corrosion, category 1B

Eye Irrit. 2 Eye irritation, category 2

Skin Irrit. 2 Skin irritation, category 2

STOT SE 3 Specific target organ toxicity - single exposure, category 3

Skin Sens. 1 Skin sensitization, category 1

Aquatic Acute 1 Hazardous to the aquatic environment, acute toxicity, category 1

Aquatic Chronic 1 Hazardous to the aquatic environment, chronic toxicity, category 1

H301 Toxic if swallowed.

H311 Toxic in contact with skin.

H330 Fatal if inhaled.

H314 Causes severe skin burns and eye damage.

H319 Causes serious eye irritation.

H315 Causes skin irritation.

H335 May cause respiratory irritation.H317 May cause an allergic skin reaction.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

**EUH210** Safety data sheet available on request.

#### LEGEND:

- ADR: European Agreement concerning the carriage of Dangerous goods by Road
- CAS NUMBER: Chemical Abstract Service Number
- CE50: Effective concentration (required to induce a 50% effect)
- CE NUMBER: Identifier in ESIS (European archive of existing substances)
- CLP: EC Regulation 1272/2008
- DNEL: Derived No Effect Level
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of classification and labeling of chemicals
- IATA DGR: International Air Transport Association Dangerous Goods Regulation
- IC50: Immobilization Concentration 50%
- IMDG: International Maritime Code for dangerous goods
- IMO: International Maritime Organization
- INDEX NUMBER: Identifier in Annex VI of CLP
- LC50: Lethal Concentration 50%
- LD50: Lethal dose 50%
- OEL: Occupational Exposure Level
- PBT: Persistent bioaccumulative and toxic as REACH Regulation
- PEC: Predicted environmental Concentration
- PEL: Predicted exposure level
- PNEC: Predicted no effect concentration
- REACH: EC Regulation 1907/2006
- RID: Regulation concerning the international transport of dangerous goods by train
- TLV: Threshold Limit Value
- TLV CEILING: Concentration that should not be exceeded during any time of occupational exposure.
- TWA STEL: Short-term exposure limit
- TWA: Time-weighted average exposure limit
- VOC: Volatile organic Compounds
- vPvB: Very Persistent and very Bioaccumulative as for REACH Regulation
- WGK: Water hazard classes (German).
